

Hovva_

'cross-over' task chair

Hovva_

"WORKS LIKE A TASK CHAIR, MOVES LIKE A COLLAB CHAIR"

Martin Ballendat

Everything and more.

Hovva is here to prove that a jack-of-all-trades can be a master of all. Looks, features, function, comfort and more – there's so much Hovva offers in a single, light-scale seat that it crosses over into new territory. So when it's time to enable collaboration (wherever and whenever you need it), Hovva sits ready to provide a radical new way to work.

- d. Tilt limiter
- e. Gabriel Runner mesh back

Synchronised Mechanism

Sustainable design_

Hovva was designed following circular design principles. All material used in the chair comply with Cradle to Cradle restricted chemical list. All recycled content has been approved and safe to use.

Mesh back_

Gabriel Runner mesh back – a uniquely sustainable mesh

Gabriel Runner functions perfectly as a classic upholstery fabric, where the fabric's irregular surface and 3D construction support the diffusion of moisture and offers a high level of sitting comfort. Runner's semi-transparent quality and its soft 3D appearance give the mesh its unique appearance, style and character.

Runner has Oeko-Tex* certification and is 100% free of heavy metals.

* Oëko-tex certification

STANDARD 100 by OEKO-TEX® certified products have been tested for harmful substances to protect your health. Tested for Toxic Chemicals. This label certifies that every component of the product, from the fabric to the thread and accessories, has been rigorously tested against a list of up to 350 toxic chemicals.

Hovva sustainability facts

- Back mesh has Oeko-tex* certification
- Modular product with standardised components facilitates re-use and customisation
