4U 1

4U - For Everyone -

Stylish and unique, the 4U range includes chairs that fit right into workspaces, cafés, restaurants, or break-out areas.

It's a super versatile collection that lets you pick the style and finishes that work best for your space. With flexible back support and a smart design, these chairs strike the perfect balance between comfort and style.

This versatile stacking chair has a clean, simple design and a sleek, modern look. Its dark grey leg frame pairs perfectly with soft seat shell colours, bringing a fresh, contemporary vibe to any workspace.

The chair frame is cleverly designed with two key functions: first, it stacks neatly with others while keeping a gap between the seat pad and the chair above—great for protecting upholstery. Second, it easily links side by side, making it perfect for setting up rows.

With seat shells available in white, grey, graphite, or taupe, and a dark grey four-legged frame featuring a built-in underseat buffer, 4U offers a simple, stylish solution for all your conference, meeting, restaurant, or visitor seating needs.
